

A Skylit Drive, Thank God It's Cloudy Because I'm

I found a lot in this life
Never did I mention that it wasn't my intention
To inhale/exhale
The part of you
That is...
Take it or leave it
Time repeats itself
In every mirror I see myself in the same way
Reflection's half of it, but living's the price I pay
Seeing this face can cause a bit of disarray
All I ask of you is.... stop
The stage is set to arrive here my dear
The floor clears
It's not as it appears
I spent this time alone in my mind
A super model suicide
I deserve an explanation not a consequence for the offense that I have committed
Your reflection is so much different in motion
In every mirror I see myself in the same way
Reflection's half of it, but living's the price I pay
Seeing this face can cause a bit of disarray
All I ask of you is.... stop
The stage is set to arrive here my dear
The floor clears
It's not as it appears
I spent this time alone in my mind
A super model suicide
I feel that you have been caught in my appeal
I feel that on this night we are for real
Stop...
The stage is set to arrive here my dear
The floor clears
It's not as it appears
I spent this time alone in my mind
A super model suicide
You will never know
