A Skylit Drive, Thank God It's Cloudy Because I'n

I found a lot in this life

Never did I mention that it wasn't my intention

To inhale/exhale

The part of you

That is...

Take it or leave it

Time repeats itself

In every mirror I see myself in the same way

Reflection's half of it, but living's the price I pay

Seeing this face can cause a bit of disarray

All I ask of you is.... stop

The stage is set to arrive here my dear

The floor clears

It's not as it appears

I spent this time alone in my mind

A super model suicide

I deserve an explanation not a consequence for the offense that I have committed

Your reflection is so much different in motion

In every mirror I see myself in the same way

Reflection's half of it, but living's the price I pay

Seeing this face can cause a bit of disarray

All I ask of you is.... stop

The stage is set to arrive here my dear

The floor clears

It's not as it appears

I spent this time alone in my mind

A super model suicide

I feel that you have been caught in my appeal

I feel that on this night we are for real

Stop...

The stage is set to arrive here my dear

The floor clears

It's not as it appears

I spent this time alone in my mind

A super model suicide

You will never know
