

A Sound of Thunder, Lifebringer

Wandering in exile
The warriors of light
Clinging to their honor
Though justice was denied

The era of the tyrant
Who burned all hope away
He rode on a tide of fear and hate
To lead us all astray

Deliver us
Bring us the blade

Lifebringer
With starlight it was made
Only the worthy can wield the blessed blade
A quest to find the weapon forged beyond the stars
Lifebringer
It could save us all

Worshipers and refugees
Of different gods and paths
Victims of the weak and blind
Fed on the tyrants wrath

Shining like the dawn
Warriors of light amassed
Sword to bring peace to the earth
Found Lifebringer at last

Deliver us
Bring us the blade

Lifebringer
With starlight it was made
Only the worthy can wield the blessed blade
A quest to find the weapon forged beyond the stars
Lifebringer
It could save us all

Lords of Light
Bring me the blade

Lifebringer
With starlight it was made
Only the worthy can wield the blessed blade
A quest to find the weapon forged beyond the stars
Lifebringer
It could save us all
