

A*Teens, Let Your Heart Do All The Talking

Loving your smile, loving your style
Don't you get it, got what I need
You got to believe, I'm already yours
Let your heart do all the talking
Give it a shot, give what you got
Take me flying
Gimme your lips, gimme the kiss
I've been dying for
Let your heart do all the talking
Take my hand, understand
(That)
Dreams can come true
And all you gotta do
Is to go, is to flow
With the motion, you
Gotta know, gotta show
Your devotion
I just wanna be close to you
In the sunshine, wherever the sun shines
In the rain, wherever you go
Let your heart do all the talking
Make no mistake
You're makin' me shake with desire
Don't need a break
Don't wanna wait 'til the fire's gone
Let your heart do all the talking
Get in the game, get in the zone, get in the action
There's really no shame in lettin' me know that
I'm the one
Let your heart do all the talking
Take my hand, understand
(That)
Dreams can come true
And all you gotta do
Is to go, is to flow
With the motion, you
Gotta know, gotta show
Your devotion
I just wanna be close to you
In the sunshine, wherever the sun shines
In the rain, wherever you go
Let your heart do all the talking
Now finish what you started
The course you've plotted
Ain't no better time
Don't be so chicken hearted, if you want it
Lay it on the line
