Perfect Match

[Boys Sing]

You spend your money on diamonds and pearls

I'd sell my car (just) to travel the world

I look broke baby - you got flash

But even so we're a perfect match

You're into fashion, dinners and art

I know the south park series by heart

You conversate baby - I talk trash

But even so we're a perfect match

[Girls Sing]

We're like night and day - White and black

But what we have is a perfect match

When I say this - you say that

But love comes easy 'cause opposites attract

[Boys Sing]

You keep your clothes looking crispy & clean

(alt. keep your clothes so fresh and so clean)

I got holes all over my jeans

You love "Grease" baby - I love "Snatch"

But even so we're a perfect match

[Girls Sing]

We're like night and day - White and black

But what we have is a perfect match

When I say this - you say that

But love comes easy 'cause opposites attract

I know - we'll beat the odds together

We'll keep our love intact - and prove that opposites attract
