

A Thorn For Every Heart, The Prediction

Watch these roads as the wind us up (Wind us up for good)
Pulled out from under the crash and I'm covered up (We've been lost in the cold)
It's the end of it all we know it's only our fault
Pulled out from under the crash and I'm covered up (We've been lost in the cold)
(Pass so fast just can't catch us now....)
Trapped in the wreckage.
Surrounded by blood of the friends I lost.
I'm watching you all.
I'm trying to call out but I just can't
Provide the words that you longing for.
My soul leaving my body behind.
I'm dying just to talk to you.
Why, why this is the end of my life.
I didn't get to talk to you.
You'll cry at the funeral. I'm crying above you.
The wind on your face and the rain on your back,
I'll be there
I'll be where you want.
Watch these roads as the wind us up (Wind us up for good)
Pulled out from under the crash and I'm covered up (We've been lost in the cold)
It's the end of it all we know it's only our fault
Pulled out from under the crash and I'm covered up (We've been lost in the cold)
(Pass so fast just can't catch us now....)
Now we're floating away
Now we're floating away
And we're floating away
The fears I've had are lain to rest (You'll wonder while your all alone)
the dreams I've had have come to pass (breaking apart and you're calling out)
The fears I've had are lain to rest (And we're floating away)
the dreams I've had have come to pass...
