

A.Z.A., Life Goes On

Yeah It's lil dj, dj boes, young blunt & my homie seaclipse let's GO!

[Chorus:]

Young Blunt (Young Blunt)

Listen:

I was in so many love relationships, They never last long (they never last long)
I need to get you off of my chest so I can become strong (become strong)
A strong guy like when I first started writeing some songs (some songs)
You broke my heart into pieces and I started crying all night long (YEA-YEA-YEA)
So then the next day I started to think... Maybe we should go our own ways Then I started
To think to my self... I might meet the right chick for me someday
Your saying that your in love with me but your makeing it up like it's some play...
I use to have fun with you, We use to smoke, drink & eat sundays
I hate the way our lifes are going, G** DAMN IT, nothing will be the same
I hate the way that love is pain & when I wake up I don't hear you screaming my name
SO then I realize that I can take it all back, there's got to be some way
I'll do anything for you, as long as you got a smile up on your face
Why don't we go back to our relationship & you start to obey?
But you won't do anything for me, nothing will be great
But HEY were still on the same page, Whatever, I'll take you back in my past
If you don't know what happen with me and my reationships then I'll replay:

[Chorus]

Lil DJ (Lil DJ)

YEAH:

Life goes on girl we can't live our lifes like this (we can't live our lifes like this)
I mean something has got to happen I mean come on girl we both know it (know it)
We both know that we broke up, I mean we still get a-little credit (a-little credit)
For the stuff that has happen between me & you (HA-HA)_YEAH!
I know me & you have gone through a-little rough time after all these years girl (girl)
That's why we should go our own ways cause were in totally differen't worlds (worlds)
I'm just sitting here thinking about you but I don't wanna cause everytime I do (do)
Then it feels like I'm gonna hurrel-
I just want our lifes to pass us by... I just fall in the bed crying with my head down asking the questi
Why does it have to be like this? Cause we fight alot, it's just you & I
Fighting everynight, I close the door & your back inside
Your trying to get back with me & your doing that by telling lies
We fought so much & it hurts so bad, it feels like I wanna commit cuicide & die
It hurts from the heart & your leaveing me, just by saying bye
You made me cry almost everynight by cheating on me with this other guy- I mean
DAMN GIRL, if you don't believe me then I'll take you back in time (HU-HUH)

[Chorus]
