

# A1, Be First To Believe

Ben: love leads to laughter  
Love leads to pain,  
With you by my side  
I feel good times again.

Mark: never have i felt  
These feelings before,  
You showed me the world  
How could i ask for more.

Christian: and although there's confusion  
We'll find a solution  
To keep my heart close to you.

Paul: and i know , yes i know,  
If you hold me , believe me  
I'll never, never ever leave.

All: and i know,  
There is nothing that i would not do for you  
Forever be true.  
And i know,  
Although times can be hard  
We will see it through  
I'm forever in love with you.

Ben: show me affection  
In all different ways  
Give you my heart  
For the rest of my days.

Mark: with you all my troubles  
Are left far behind  
Like heaven on earth  
When i look in your eyes.

Christian: and although there's confusion  
We'll find a solution  
To keep my heart close to you.

Paul: and i know, yes i know,  
If you hold me, believe me  
I'll never, never ever leave.

All: and i know,  
There is nothing that i would not do for you  
Forever be true.  
And i know,  
Although times can be hard  
We will see it through  
I'm forever in love with you.

Christian: no need to cry,  
I'll be right by your side.
