

# A1, High And Dry

Maybe I dont even exist  
So I'll stay anonymous  
It's over and the situations shrouded in shame  
And they say it's down to us  
But what do they know?

(Chorus)  
So I'll ride, this tide  
Till it's starting or ending  
I'll never get tired of your lies  
But what you got to visualize  
It's so intoxicating  
We either get high or go dry

Either get high or go dry  
This time

I see you're playing that song again  
You never show your hand  
To let me in  
You keep it all inside yourself  
And cry to no one else  
But I'll catch your tears

(Chorus)  
So i'll ride (so i'll ride), this tide (this tide)  
Till it's starting or ending (starting)  
I'll never get tired of your lies  
But what you got to visualize (oh-oooh)  
It's so intoxicating  
We either get high or go dry  
We either get high or go dry  
Either get high or go dry

You say this love will see another day  
But at least tonight you'll be mine

(Chorus)  
So i'll ride (so I'll ride) this tide (this tide)  
Till it's starting or ending (starting or ending)  
I'll never get tired of your lies (oh no)  
But what you got to visualize  
It's so intoxicating  
We either get high or go dry (dry)  
We either get high or go dry (either get high)

Either get high or go dry

Gonna go, gonna go, gonna go high or get dry, yeah yeah  
Either get high or go dry  
We either  
Go dry  
High and dry  
No-oh  
Either get high or go dry  
High and dry  
We either go  
High and dry  
Ooooo-ooooooh  
No no  
So i ride  
This tide baby this tide
