Aaliyah, Death Of A Playa (Featuring Her Brother

CHORUS:

You used to love them, leave them, kiss them Break their hearts, but now I got you in my arms You used to get them, trick them, diss them Do them wrong, but now your playa days are gone VERSE1:

Everybody knew about you baby and the games you played Couldnt count the names, faces and numbers Nor the times you laid down

But somebody knew about you baby and that youd change It was me 'cause I could see my love would turn you around CHORUS:

You used to love them, leave them, kiss them Break their hearts, but now I got you in my arms You used to get them, trick them, diss them Do them wrong, but now your playa days are gone VERSE2:

I always say never say never boy, but you did That's when I took your mind and flipped the script Your boys talkin' 'bout you're falling off And that you're whipped But who are they to say when it's all my love I give to you CHORUS:

You used to love them, leave them, kiss them Break their hearts, but now I got you in my arms You used to get them, trick them, diss them Do them wrong, but now your playa days are gone RASHAD'S RAP:

CHORUS: (until fade out)
