Aaliyah Feat. Rashad

Miscellaneous

Death Of A Playa

Death Of A Playa

Aaliyah Feat. Rashad

Chorus:

You used to love them, leave them, kiss them

Break their hearts, but now I got you in my arms

You used to get them, trick them, diss them

Do them wrong, but now your playa days are gone

Everybody knew about you baby and the games you played

Couldn count the names, faces and numbers

Nor the times you laid down

But somebody knew about you baby and that you change

It was me 'cause I could see my love would turn you around

Chorus:

You used to love them, leave them, kiss them

Break their hearts, but now I got you in my arms

You used to get them, trick them, diss them

Do them wrong, but now your playa days are gone

I always say never say never boy, but you did

That's when I took your mind and flipped the script

Your boys talkin' 'bout you're falling off

And that you're whipped

But who are they to say when it's all my love I give to you

Chorus:

You used to love them, leave them, kiss them

Break their hearts, but now I got you in my arms

You used to get them, trick them, diss them

Do them wrong, but now your playa days are gone

Rashad's Rap

Chorus
