Put ur hands up
Put ur hands up
Come on
I sould of known
Something was up

When i got up
Something felt funny to me
On the get up
Jumped out of the bed
Put my head up
Guess who was staring at me
An e.t.!!
An alein and he said his name
Was steeve

And he didnt look
Like what i thought he
Would be
And he said
(aaron will you help me please
Heres ur space suit now come with me)
So we hopped up in the space truck
It was all crome out with
The system up

And i thought we were going to mars
We made a left
Though the dipper never figure
I would be here
With a spin-n-jiggie
We got there and i read the sign
It said welcome ac its about time
Can u show us
Can u help us
Dance tonight
Cuz we have no rythm
And we runnin at of time

Hold on to the rocket
Theres a universe of rythm
And the beat dont stop in
Ac's alien nation
Everyone is a cosmec freak
And we have one mission
Got to move as one in
Ac alien nation

Listen up heres what u
Gotta do
U take one step up
Dont try to take two
Make sure u pump

Ur fist like this
Not like this
And rock like this
Cuz everybody gotta
Learn this way
To be together
To stay together
No we gonna enivate
Moon lost
Tars off
The universeal big top
Circus no this
Soon u got to no this
It really doesnt matter if u
Short or tall
Green or blue
Fat or bald
Cuz i came with the groove
Im proving it all
And around these parts
We dont take no shorts
Unity
Soon to be
Industry
U can see with ur eyes
How far we come
Cuz we didnt have rythm
Now we got some
Its just another day in the ac nation

Repeat chours

U say u wanna dance well
Heres ur chance
Uh uh
Break it down
Yeah
We gonna break it all down
Uh uh
R-r-r-right to left
Uh uh
R-r-right to left
Now up and down
And side to side
Come on
