

Aaron Hall, The Places I Would Kiss...

Intro:

There's so many places i wanna kiss you baby
I can't even begin to start
I realize I'm not the only man that's ever made love to you
But I'm the only man who can keep you
Your body's mine, i believe it

Chours:

All the, the places i would kiss you
Oh baby let me kiss you
With all my love...
All the, the places i would kiss you
Oh honey let me kiss you...(yeah yeah yeah)
With all my love...

Here I am, I'm ready baby
My desire is to please you honey
I'll concentrate on you
There's no other who could do what I do to you
Lights down...the mood is right
Come on over here and hold me tight
You'll fire'll be turned on
When I kiss the spots that make you wet and hot
Baby surrender to me

Chours (1x)

You taste so good
I love it baby
your trembling out of control honey
Those questions on your face
Let me know there's no gettin' away
You know, I know your body's on
I can hear how I make you moan
Your moanin' turns me on
Kiss your body all night long
Baby you know there no one place that
Would play on it's own

Chours: (1x)

Bridge:

Baby... you know that I want you
So just take me ...love right now
I'll love you down baby
Like you've never been loved

All the places...
All the sweet places baby...
Yeah yeah yeah yeah...kiss you
Let me kiss you
