

Aaron Neville, That's The Way She Loves

(Allen Toussaint)

With her mind far away from mine
She's mostly sincere most of the time

Yeah

That's the way she loves, that's the way she loves, that's the way she loves

That's the way she loves

That's the way she loves, that's the way she loves

That's the way she loves

With her strong desire to please

Oppression to her, is like a disease

Yeah

That's the way she loves, that's the way she loves, that's the way she loves

That's the way she loves

That's the way she loves, that's the way she loves

That's the way she loves

Many times when she's alone

She dreams and dreams and dreams

Dreaming of a perfect love

That never was, and would never be

With her heart placed in her hand

She will go to the end and back if she can for me

That's the way she loves, that's the way she loves, that's the way she loves

That's the way she loves

That's the way she loves, that's the way she loves

That's the way she loves

That's the way she loves, that's the way she loves, that's the way she loves

That's the way she loves

That's the way she loves, that's the way she loves

That's the way she loves

That's the way she loves, that's the way she loves, that's the way she loves

That's the way she loves

That's the way she loves, that's the way she loves

That's the way she loves
