

# Aaron Shust, Change The Way

King of all the universe  
We love You and we come to You know  
Asking for Your healing touch  
We need You this very hour

Would you help us comprehend what it means to worship You  
'cause we're blinded by our circumstance  
Heal our eyes today

May we know Your love; feel it course through our veins  
Encircling our hearts and embracing our souls  
We need Your love and grace to remain, to rearrange our hearts  
And change the way we praise

Son of God who took my place  
We thank You and may we realize  
You've made us righteous in His sight  
You took our wrongs and made them right  
We owe You all of our lives

Love me, Father, for I am Your son  
(and I am Your daughter)
