Aaron Shust, Take Over

I tried to run, I tried to fight You But I'm done, I'm giving up I've learned to trust You, Your love Now I'm singing Can You take over, take over Can You take over me I've been here over and over again Here on my knees I'm only closer and closer To where I wanna be When You take over, take over Can You take over me I tried before to let go And I just hold on more, amazing Lord I need the strength to let go and be Yours So now I'm singing Can You take over, take over Can You take over me I've been here over and over again Here on my knees I'm only closer and closer To where I wanna be When You take over, take over Can You take over me

I surrender all I have And I surrender all I am As I remember what You've done to set me free I just wanna sing Can You take over, take over Can You take over me I've been here over and over again Here on my knees I'm only closer and closer To where I wanna be When You take over, take over Can You take over me Can You take over, take over Can You take over me I've been here over and over again Here on my knees I'm only closer and closer To where I wanna be When You take over, take over Can You take over me Take over me Take over me
