

# Aaron Sprinkle, See It In Me (Acoustic)

You let me  
Inside your brain  
Contagious  
Again and again

Well I've noticed  
Along the way  
That it's beautiful  
And I'd love to stay

Won't you come down  
And sleep on the ground  
And I'll be your friend  
And I'll take your hand

All my fault  
I said something wrong  
And I hurt you  
I went overboard

So forget it  
Please forget it  
'Cause I do care  
I just lost my head

I used to play on the green  
Then I saw what I had never seen

See it in me  
The branch of a tree  
Under this wing  
Secrecy sings

What can I  
Say to make you smile  
It's been an hour  
It's been a while

So believe me  
Please believe me  
'Cause you know your  
The girl of my dreams
