

Aaron Tippin, Don't Stop (we're Just Gettin' Started)

Girl I know that I promised you
I can make your every dream come true
But I admit I got a little ways to go
Trust me baby, we're closin' in quick
Before you know it we'll be stackin' the bricks
So, stick like glue, we got nothin' to lose
So baby, don't stop, we're just gettin' started
Don't quit now we got a foot in the door
Say you're not about to end the party
Baby, hang on tight just a little bit more
I stand behind every word I say
I love you baby, there's your reason, so stay
Don't be flip floppin' when you know that we're rockin' along
I can't believe you wanna throw in the towel
Stop and think of what I'm talkin' about
You threw your hat in the ring, that gonna get that thing
Baby, don't stop we're just gettin' started
Don't quit now we got a foot in the door
Say you're not about to end the party
Baby, hang on tight just a little bit more

Like an old violin or vintage wine
All good things come in good time
We might run out of road
Bein' like the end of a line
Honey I swear up and down
Our turn's about to come around
We'll have it all in the long haul
Baby, don't stop we're just gettin' started
Don't quit now we got a foot in the door
Say you're not about to end the party
Baby, hang on tight just a little bit more
Ah, sugar don't stop we're just gettin' started
Don't quit now we got a foot in the door
Say you're not about to end the party
Baby, hang on tight just a little bit more
Don't stop we're just gettin' started
Don't quit now we got a foot in the door
Say you're not about to end the party
Baby, hang on tight just a little bit more
