

# Aaron Tippin, She Made A Memory Out Of Me

You're looking at a man that's almost gone  
Had a good woman and I went and did her wrong  
Honey found out I was lovin' double time  
She moved me from her heart to the back of her mind  
She made a memory out of me  
Just a vision of the past is all you see  
Like a statue of stone a part of history  
Yeah, that woman made a memory out of me

Lord, I'm so low down for what I've done  
I don't even make a shadow when I'm walking in the sun  
I hide my face, hang my chin  
Just another sad story 'bout an old has been

She made a memory out of me  
Just a vision of the past is all you see  
Like a statue of stone a part of history  
Yeah, that woman made a memory out of me

Say Lord, that baby made a memory out of me  
Just a vision of the past is all you see  
Like a statue of stone a part of history  
Yeah, that woman made a memory out of me

Lord, that baby made a memory out of me
