

# Aaron Tippin, Up Against You

I've had my back against the wall more times than I can count  
Seems I was running into trouble every time I turned around  
But now my luck is changing, I've run into a dream come true  
I've never been up against anything quite like you  
There have been tight situations but baby this is close  
You're so soft to touch and you're so easy to hold  
For the first time in my life I feel like I just can't lose  
And I've never been up against anything quite like you

When the odds are against me I just laugh it off  
'Cause nothing is as tough as this love I've come across

When we met head on, you really changed my point of view  
I've never been up against anything quite like you

There have been tight situations but baby this is close  
You're so soft to touch and you're so easy to hold  
For the first time in my life I feel like I just can't lose  
And I've never been up against anything quite like you

No, I've never been up against anything quite like you
