

AB4, Casual Dreams

Everything else now
The time may erase
But I just can't forget your face
I just can't forget your face
Never met you, and maybe never will
Something that never lived
You simply cannot kill
chorus: Is this another, is this another
Is this another game of mind
Bounded by something, I don't fear
Don't want to untie this
I want to get near
Near you hear, or better, near you there
As long as together it simply doesn't care
chorus:
