

Abba, Tived's Hambo

It's Saturday night
and the blissful girl from Tived
has walked out of the dark
forest
And everywhere people say:
This Saturday there's a barndance
This charcoal-burner shuts the door
of his hut
with a grateful bang
since it's Saturday night
Because when there's dancing
somewhere in the Area
He wants to be there and have
Throughout the forest and
valley
we rarely see female beauty
And inside the cool hut
hambo is like an illusion
Bud now have the
opportunity
to create some memories to
bring back home
They're good to have when you
get old
as a comfort for this we then
have to without
You hear shoe heels dance
And Verner chases the district
police superintendent
Yes, if there's a quarrel
it's settled with knife
because this is like the Wild
West
The Rappe snuff is best
for everyday use as well as for
festivities
Come over here here and let's carry
away the orchestra
Women, wine and singing
We fight and the same time
and rip apart our clothes
And if you don't have any
clothes left,
you'll have to walk around with
bare buttocks
and hope continued good
weather
We don't throw darts
We have a different style
Something that's more reckless
Isn't it still my right to fight
when they flirt with Hilda?
Then it may happen
that the Tived blood starts to
boil)
Then coat and hat will start
flying
if it's a beating you need
We're used to hard work
life in huts and the woods of
Tived
We rely on our strength and
knuckles
to give us courage and

confidence
You hear shoe heels dance
quickly
when the Tivedshambo plays
Has Frida's verner gone crazy?
People from Tived dance
it's settled with a knife
because this is like the Wild
West
The Rappe snuff is best
for everyday use as well as for
festives
Come over here and let's carry
away they orchestra
