

Abba, Wrap Your Arms Around Me

When you're so far away
At the end of each day
Counting the moments till you fade away
Inside my soul
Under passion's control
Are feelings I can't find the words to explain
Just like the first time I'm helpless again
Wrap your arms around me
Let your love surround me
Make love to me now like never before
Wrap your arms around me
From the day you found me
You'll never be alone
The nights are so cold
With just your memory to hold
I've tried to be strong
Reaching out holding on
Alone in my bed
I cling to each words you said
Wanting you more everyday you're apart
And each precious moment is safe in my heart
Wrap your arms around me
Let your love surround me
Make love to me now like never before
Wrap your arms around me
From the day you found me
You'll never be alone

*NOTE Agnetha mumbles for quite a while in this song:

Tag mig i din famn... (Take me in your arms...)
Hll om mig... (Hold me...)
Du r den - bara du... (You are it - only you...)
Jag vill vara hos dig... (I want to be with you...)
Vi hr tillsammans... (We belong together...)
Vi var s nra... (We were so close...)
Ntterna r s kalla... (The nights are so cold...)
...vill vara hos dig... (...want to be with you...)
Saknar dig hur som helst... (Miss you anyway...)
Jag vill vara hos dig... (I want to be with you...)
Hll om mig - Iska mig - Iska mig... (Hold me - love me - love me...)
Just like the first time I'm helpless again
Wrap your arms around me
Let your love surround me
Make love to me now like never before
Wrap your arms around me
From the day you found me
You'll never be alone
Wrap your arms around me
You'll never be alone...
