

Abby Travis, So Far Away

If I repeat it enough times it comes true
There will be love that will make my dreams come true
If I repeat it enough times it comes true
I'm not the girl that I was when I met you

But I'm so far away, I'm so far away
I'm so far away from here
I'm so far away, I'm so far away
I'm so far away from here

If I conceal it I might just fool you
I don't want to jinx all the hope I have for you
If I conceal it I might just fool you
What is unspoken is not always untrue

So far away, I'm so far away from here...
