

# Abby Travis, So Far Away (Remix)

If I repeat it enough times it comes true  
There will be love that will make my dreams come true  
If I repeat it enough times it comes true  
I'm not the girl that I was when I met you

But I'm so far away  
So far away  
So far away from here  
I'm so far away  
So far away  
So far away from here

If I conceal it I might just fool you  
I don't want to jynx all the hope I have for you  
If I conceal it I might just fool you  
What is unspoken is not always untrue
