

Abducted, Varsity

ten years ago when you were copying your friends
you never thought you would make a change
you found comfort in that
and then you saw some t-shirt in some magazine
you had to buy it so you could be just as special
and you'll do it again
just to stay with the scene
you'll never have to think again
and now you're looking back on who you were before
you're thinking "what a dork" but it's the same old you
and when you see some t-shirt in some magazine
you have to buy it so you can be just as special
