

Abdul Paula, The Choice Is Yours

Abdul Paula
Head Over Hills
The Choice Is Yours
Lately I've had my doubts
About the way you feel
Tell me there is no other love
You see but me, ooooh
I've been a good woman to you
Give you sweet love every night
Break up, make up
That's all that we do
So if you better want my love
You've got to go down
The choice is yours
The choice is yours
The choice is yours if you can find something better
The choice is yours
The choice is yours
Just like it seems you know it really don't matter
Don't be a fool and take too long
To make your move
A woman like me deserves a knight
In armor too
I've been a good woman to you
Give you sweet love every night
Break up, make up
That's all that we do
So if you better want my love
You've got to go down
[Chorus]
I never give in to friends
That don't give in to me
Treat me with love
Desire to be with only me
[Chorus]
