

# Abdul Paula, Under The Influence

Abdul Paula  
Head Over Hills  
Under The Influence  
I fell in love  
When I first spotted you among the crowd  
Your eyes met mine  
And that's when the room started spinning around  
Suddenly  
I couldn't breathe  
I felt my knees  
Getting weak  
And baby I could not think straight  
I had to move  
Closer to you  
Talk to you  
But you had left me in an altered state  
And it was driving me insane  
Under the influence  
Baby you got me  
Under...fascinated, intoxicated (cuz I'm)  
Under the influence  
Oh baby you got me  
Under the influence of you  
I moved your way  
It's more like gravity was steerin' my heart  
What can I say  
(I want to be your lover baby)  
Be your lover right from the start  
I had to go  
Very slow  
Vertigo  
Was rushin' through my body  
And my brain  
I was mesmerized  
Hypnotized  
To my surprise  
You told me that you felt the same way  
And it was driving you insane  
[Chorus]  
I had to go  
Very slow  
Vertigo  
Was rushin' through my body  
And my brain  
Mesmerized  
Hypnotized  
To my surprise  
You told me that you felt the same way  
And it was driving you insane  
[Chorus]
