

# Abdullah, Lucifer In Starlight

And the stars burn for me  
And the night is my only friend  
I should rule this  
I'm the master of so many men  
So lonely  
Been alone for too many years  
So wretched  
To suffer the mortal man's fears

This world was made to mock me  
The human race has damned me  
I become the lies they speak

Won't you join me in my anguish  
Won't you comfort me in this abyss  
Desire of me, satisfy me, I'm yours  
Crucify me like the one that you love

I'll watch this world burn  
I'll watch this world burn

Won't you join me in my anguish  
Won't you comfort me in this abyss  
Desire of me, satisfy me, I'm yours  
Crucify me like the one that you love

And the stars burn for me  
And the night is my only friend  
I should rule this  
I'm the master of so many men  
So lonely  
Been alone for too many years  
So wretched  
To suffer the mortal man's fears
