

# Aberdeen, Sink or float

Of all the things I said  
I like this the best  
Of all the things I meant  
But never meant to say  
Holding my breath through tunnels, well  
I almost crashed  
Holding my breath on the way home  
Got my wish at last  
All the times I cried  
I should have tried to be real  
All the times I cried  
I want to tell you how I feel  
I feel  
Through I feel regret  
I know that you regret this more  
But I feel as if I've never had a crush before  
And I never asked to feel this way  
Or put you off  
But when you touched me  
I forgot and then I couldn't stop  
Holding my breath through tunnels, well  
I almost crashed  
Holding my breath on the way home  
What do I wish for now?
