

# Aberfeldy, Heliopolis By Night

One day I was sleeping and I was taken high  
Through the veil of darkness that is stretched across the sky  
And though I could see nothing I heard a voice say this:  
"Interflight coordinates for Heliopolis";

Beautiful unusual sight  
Heliopolis by night  
Bathed in gold and shimmering light  
Heliopolis by night

Sent me for the first time to the place they call their home  
Words could not describe to you the things that I was shown  
And though I was so far away not one thing did I miss  
Safe among my friends in golden Heliopolis

(Danced all night)

Beautiful unusual sight  
Heliopolis by night  
Bathed in gold and shimmering light  
Heliopolis by night

Beautiful unusual sight  
Heliopolis by night  
Everything will be alright  
Heliopolis by night

And the reason why they took me was something I never learnt  
My body lay there sleeping when I finally returned  
And the lover who I left behind woke me with a kiss  
And asked where I had been; I answered "Heliopolis.";
