

Abhorrance, The Terrorists Sleep Atop Capitol Hill

We've reached a time where rhetoric
Holds greater value than evidence
From the Bible to Government
Instilling fear in the idiots

The feeding hand is a killing hand
Empowered by blind demand
A corporate sponsored holocaust
The popular vote at a loss

The rulers swindle riches
While real workers slave

We give our lives to serve their f**ked-up interest
Consented by the blinded moral right
Offenses abroad perpetuate the global hate

Surrender of rights for protection
Gives the President an erection
Trusted leaders are the oppressors
Selling-out our democracy

(Solo 1: Patrick)
(Solo 2: Brandon)

Reject consumerism
Burn the motherf**kers
Shroud in a blazing flag

Reciprocate altruism
Pax-American globalization
