

# Abigor, Ubique Daemon

On the path of immortality - I walk  
I am forever with the stars so plentiful and bright  
The gorgeous victory of sheer energy and matter  
This is my constellation - reflected in you fear  
Through dark tangles of mountainsides I descend  
And no other God is as strong as I am  
I am Satan...

The lustrous and overwhelming scorn  
Mein Schattenbild aus einer zeitlosen Welt  
Wird sich manifestieren  
And all I see, as I stand above this ancient landscape  
Is the horror and death that awaits you...  
My wings flare in the cold wind  
The delicious stench of blood make me laugh  
And for one moment I've felt harmony  
As I've seen mankind's end...
