

Abomination, Pull The Plug

Alcohol infested lives

In the night they seem to fly

Never ending road to death

Never near the home stretch

Lack of guidance, sudden trust

Will they soon forget the loss

Everyone's refuse to drive

Designit in charge of lives

Will they cross the final bridge

Will they parish in a ditch

Pull the plug, the right to drive a privilege

Stop the fools, don't override decision

Pull the plug, the right to die your option

He's the judge, allows this to continue

Best of all evils are never deprived

Consumed by the handfuls and ruining our lives

Violent cutback the system avoids

Protecting the children, from dangerous exploits

Buy a license from the state

Such a little price to pay

Drive them all to sudden death

Pull the plug and gain respect
