

# Aborted, Sphinctral Enthrallment

Fecal obsession, Fixated on my own turds  
sewed down the anus  
forcing the crad to fester among my intestines  
walking heap of human methane  
ready to burst giving the impression of pregnancy  
the turds start to revolt, taking over it's host  
internal infestation propagating it's way  
the intestinal walls colapse injecting veins with filth

walking human methane bomb ready to crack  
as shit is oozing out of my pores, my colon walls to collaps  
walking human methane bomb ready to hatch  
shit is thrusting in my veins- cardiac arrest

Sphinctral enthrallment - shit pumping up the smothered rectum  
Sphinctral enthrallment - internal bloodflow congested by feces

the pedestool randomly sprayed with feces and guts  
a pittoresque canvas of coprophageous hordseuvers

bypassers repulsed by the burning anal scent,  
all admiring this sculpture of steaming excrements  
adding puke to the recipe

admiring this shinctral abattoir, victims of this coprophageous war  
getting off the stench of bile and spunk, i sphincturbate and defile
