Aborted, To Roast And Grind

(Music: Thijs, Aborted; Lyrics: Sven)

Serialistic - Thriving on my lust to kill A half gnashed torso skulpted at my will Blood is pumping as I retract the cleaver Necrotic fungus, man has found its redeemer

Enter into the realm of gore
Parisitic I feed on you worms
where love is cancer and apathy is bliss
I - am an artist of coital bile
forcing my ways into flesh with desire
Incinerations of those who stand amidst
more bodies for me to roast and grind...

Voluptiosly I trampled, rendered to snot savagely I lacerate, grinding your f**king face

Aroused by the pile of chunks I must satisfie my needs the gasping wounds are grasping around my flesh impaling cock upon your cadaver I piss...
