

# About Us, Our Fairyland

Now I don't feel the same  
You know I've been waiting for you, years  
I look in your eyes I see gold  
The feeling of bliss inside me will never go  
I Can't hold for long I need you here  
Or just call my name.

I'll live for your romance  
Never an end in our fairyland  
We're gonna have all it takes,in the end...ohh

Let's live in the moments  
I'll be with you when you are crying  
Nothing's falling against us ever, when it's true....yeahh

I don't know why I feel inflamed  
For better or worse i want to 'take on'  
Never before I had this light.  
Not gonna take the chance to lose it  
Thought it was a dream but it ain't this time  
Oh! come on let's go.

Give me your hand now  
We will fly away  
Lay beside me girl  
Come on come on.
