

Above Symmetry, Torn Apart

I can see the face of evil when I close my eyes
And I 'm left with too much to change
The trace you left me makes me bleed again
I was an easy prey
So young, so vulnerable
In my dreams I crawl in human flesh
To me you were an easy prey
My breath made you panic and my voice
Created fear in your eyes
Your scream made me smile
Treated as filth, drowned in pain
I'm left with an empty heart
Struggling for a life
Struggling for a future
It was never clear
It was to be torn apart
Her eyes won't shine anymore
All the joy is broken from the core
I felt so alone, so hurt
And I'll never forgive myself
Please give me a choice
Please give me hope to survive
Struggling for a life
Struggling for a future
It was never clear
It was to be torn apart
Her eyes won't shine anymore
All the joy is broken from the core
Struggling for a life
Struggling for a future
It was never clear
It was to be torn apart
Her eyes won't shine anymore
All the joy is broken from the core
