

Above The Golden State, Loud & Clear

I'm not afraid to hear the silence
I'm not afraid when I'm alone
And I've seen a symphony of sunsets
Ooh, but I wanna know You as I'm known
I can hear You loud and clear
You're the song inside my head
The melody I can't forget
Louder than the world I'm in
You're the song I've always heard
The instrument of grace throughout the universe
Louder than the world I'm in
I'm not afraid to look in darkness
I'm not afraid to lose control
I love how You orchestrate the sunrise from the starlight
Give me a song to call my own
I can hear You
You're the song inside my head
The melody I can't forget
Louder than the world I'm in
You're the song I've always heard
The instrument of grace throughout the universe
Louder than the world I'm in
Life is an offering
Inside of this heartbeat
Today is a new song
Every verse is a new thought
And every breath is a chorus
My life is ascending, my life is ascending
You're the song inside my head
The melody I can't forget
Louder than the world I'm in
You're the song I've always heard
The instrument of grace across a fallen world
You're the song inside my head
The melody, Your grace throughout the universe
Louder than the world I'm in
Louder than the world I'm in
Louder than the world I'm in
