

# Above The Golden State, Real To Reel

My life has scripted lines like a movie  
And you're listening now  
My director's watchful eye is recording  
Every move and sound  
The camera's on, three, two, one, everyday  
Because it won't be long ~til it's done  
And tomorrow will bring the awesome rising sun  
Like a preview of what's to come  
Watch me go on the slide  
Scene by scene, my whole life  
I'm showing you my heart  
From real to reel  
Run the tape through my mind  
Fit to screen, cut to size  
I'm playing you my ~Best of' how I feel  
From real to reel  
I'll roll through Hollywood with a chariot  
And gold rimmed shades  
I can't imagine the look on Oscar's face  
When he sees my star on the walk of fame  
Oh, I believe when I leave  
I'll play a part in this eternity's documentary  
Tomorrow will bring the awesome rising sun  
Like a preview of what's to come  
Watch me go on the slide  
Scene by scene of my whole life  
I'm showing you my heart  
From real to reel  
Run the tape through my mind  
Fit to screen, cut to size  
I'm playing you my ~Best of' how I feel  
Watch me go on that slide  
Behind the scenes of my true life  
I'm showing you my heart  
From real to reel  
Run the tape through my mind  
Fit to screen, cut to size  
I'm playing you my ~Best of' how I feel  
From real to reel  
My life has scripted lines  
Like a movie and you're listening now
