

# Abra Moore, I Do

So I'm a little left of center  
I'm a little out of tune  
Some say I'm paranormal  
So I just bend their spoon  
Who wants to be ordinary  
In a crazy, mixed-up world  
I don't care what they're sayin'  
As long as I'm your girl  
Hey, you are on my side  
And they, they just roll their eyes  
You get me  
When nobody understands  
You come and take the chance, baby  
You get me  
You look inside my wild mind  
Never knowing what you'll find  
And still you want me all the time  
Yeah, you do  
Yeah, you get me  
So what if I see the sunshine  
In the pouring rain  
Some people think I'm crazy  
But you say it's okay  
You've seen my secret garden  
Where all of my flowers grow  
In my imagination  
Anything goes  
I, I am all you want  
They, they just read me wrong  
You get me  
When nobody understands  
You come and hold my hand, baby  
You get me  
You look inside my wild mind  
Never knowing what you'll find  
Still you want me all the time  
Yeah, you do  
'Cause you get me  
Hey, you are on my side  
They, they just roll their eyes  
Yeah, yeah, yeah  
'Cause you get me  
When nobody understands  
You come and take the chance, baby  
You get me  
When none of the pieces fit  
You make sense of it  
You get me  
You look inside my wild mind  
Never knowing what you'll find  
And still I want you all the time  
Yeah, I do  
'Cause you get me  
Yeah, oh, yeah, oh
