

# Abra Moore, Say It Like That

Say that you like that  
Say that you would, say you will  
Say all the things that you never could  
Say what you want, say what you feel  
Tell it to me like that, tell it to me light, tell it to me right  
Could you tell it to me real this time  
Tell me how you plan to take me  
And how you're planning to steal my heart away

Holding your breath again, you're holdin' on, holdin' on  
I can feel it  
Holding your breath again, someday you're gonna have to let it go  
You've got me hiding behind your blue curtain, blue curtain of love  
You've got me hiding behind your blue curtain, blue curtain of love

I wish it could be all that easy and free  
Wish it could, wish it could  
We could break down all these lines  
Break 'em down, break 'em down  
So I keep all my treasures in this big old box  
Let me show them to you, to you

Say that you like that  
Say that you would, say you will  
Say all the things that you never could  
Say what you want, say what you feel  
Tell it to me like that, tell it to me light, tell it to me right  
Could you tell it to me real this time  
Tell me how you plan to take me  
And how you're planning to steal my heart away

I wish it could be all that easy and free  
Wish it could, wish it could  
We could break down all these lines

Say that you like that  
Say that you would, say you will  
Say all the things that you never could  
Say what you want, say what you feel  
Tell it to me like that, tell it to me light, tell it to me right  
Could you tell it to me real this time  
Tell me how you plan to take me

And how you're planning to steal my heart away

Ooh la la la la la la la la la la la la la la  
Ooh la lay  
Just like that
