I just think it's right
you pullin me close
you pullin me close
I just wanna hold you
when the night is out
you, know
I wanna go
yes I do
yes I do

when I'm with you
baby, you just talk talk
when you cane in
even in my second though
I just think it's right
you pullin' me close
every time you move like that
I can be your
what we wash right now
I wann give you what
I do whatever you want me do
it's time we both make a move
