(Music & Lyrics: Klauke)

(Verse 1:)

Black was the night the all covered sky sending rain and fire  
2066 a different world as we know

Visions of tomorrow's world  
See that mankind didn't learn  
What we've built in thousand years  
to pieces it is blown!

(Bridge 3:)

As I woke up no signs at all  
Scared by a dream I know this can't go on and on  
People wake up and beware

(Verse 3:)

Black was the night the all covered sky sending rain and fire  
2066 a different world as we know  
Two old men lightened up by a candles flame  
A glance from their eyes showing no future at all

(Bridge 4:)

There's only one way that we have to go open  
your eyes for the

(Refrain:)

Visions of tomorrow's world without crime and  
without hurt  
What we've built in thousand years  
lasts eternally!
