

Abscess, An Asylum Below

Torn from your flesh, skull fragments fly
Gorieriffic conclusion, beginning to die
Thrown into black, mind starts to drain
Absolute horror, here you remain

[solo - Bower]

Ripped from life, born to death
No more light, splattered head

Mangled corpses burn

Hell awaits, dawn is dead

Rotting flesh, hopelessness

Mangled corpses burn

Mangled corpses burn

Mangled corpses burn

Tortured soul, evil life

No escape, you have died

Mangled corpses burn

Infinite agony

Searing pain, never free

Mangled corpses burn

[solo - Coralles]

Vision of gore all tht remains

Disgusting Landscape littered with brains

Soul is on fire, dead in a hole

Falling into the asylum below

[solo - Coralles]
