I've Got Worms Living in My Skin  
Squeeze them out watch them crawl back in  
I hear Fleas jumping in my Bed  
The Teeth are falling out of my Head  
All I own I Took Apart  
I never finish what I Start

I Look Out the Window I See Faces Looking In  
Can I Believe I am seeing things can not be  
Time melts whats real who's inside my mind  
Without sleep dream awake open eyes are blind

Fetus Formed just half a brain  
Little bitty Baby born insane  
Pneumonia in its tiny lungs  
The pain of life has just begun  
Dreams of what life could of been  
But Mom was hooked on Methamphetamine
