

Absurd Minds, Welcome To The Cyberspace

Your wishes come true
There's something special
A present for you
A world of colours
A world of shapes
Everything's so real
You can play your game all night long
All day
All life

Welcome to the cyberspace
We live another illusion
Admonitions come too late
Addiction dominates(x3)

The virtuality is everything you see(x2)

Sometimes you wake up from this virtual delight
But you can't walk
Your legs are stunted tonight
Your body dies
But you live your game all night
Long, all day
All life
