

# Absurdus, Blood Drive

Are you there behind the trees?  
Waiting there with your eyes glowing  
I know you wait for me

Are you there with your desire?  
Come here I show you the Devil  
We'll make the sacrifice of life

Children raised in hate  
Bloodlegacy beyond centuries

You shall be my whore of hell  
Awake now and walk with me  
Towards the pearly gates

In the dreary landscape of mind  
the drops of losses burst in alive  
so crumble before this Luciferian love  
'cos like my blood is red, all my love is in death

Tonight (drown with me)  
The midnight sun sets so red  
Aah (love my pain)  
Under bleeding sky we made our bed

I can be the one, the one you want  
I am your key to the new realm  
The mark is written into our hearts

Yes, we gather the light  
And howl like wolves of night  
As we enter the kingdom of lust

Children raised to hate  
Blood drive pulsing in veins

Immortality is what I ask  
Eternal life for two of us  
For these souls stained by blood

Tonight (find my heaven)  
The midnight sun sets so red  
Aah (born into my hell)  
Under bleeding sky we made our bed
