## Absynthe Minded, Sucker (The Boy Was Never T

I cant believe its really me theyre laughing at I thought im fly and hip And ive got stickers sticking on my brain and everywhere I thought that they could see how i can be as them If i talk loud and clearly i am me But i am such a fool that i believed in it

I dont know what im gonna do theyre all the same
And want me dead or gone
And i dont know whos picking on me the most of all
Im gonna get them all back once
And then ill laugh
And theyll be gone
And i will find a girl and marry
And i am going to really believe in it

I will believe in it
