

# Abyssaria, Total Soul Eclipse

Turning night into day, day into night  
Drifting in floods, no bottom beneath

Sinister the waves around extend  
Shatter on black rocks of neverland

Initiating the fusion of sun and moon  
Snow falls in summer, dry rain on my skin

Sinister the waves around extend  
Shatter on black rocks of neverland

Strange are the times  
When shadows haunt my mind  
Total Soul Eclipse  
I've lost myself again... and again...

Confusing emotions inside my head  
All life's seems to be born dead
